SUBJECT INDEX

α-stat,
  effect on erythrocyte metabolism, 115
Acclimation,
  and acid-base status of pigeons, 217
  and dependence of goldfish heart function, 171
  and dependence of stretch receptor membrane potential in *Astacus*, 9
  and heat balance in rabbits, 155
  and heat shock protein production in a reptilian cell line, 163
  and membrane structure and function, 1, 9
  and oxidative stress in *Rana*, 193
  and oxygen consumption in *Rana*, 193
  and plasma levels of thyroid hormones in chickens, 149
  and thermal resistance in *Artemia*, 61
  and thermal resistance of land snails, 119
  effect on heat shock protein production, 61, 67
  effect on muscle potentials in bees, 307
  effect on muscle respiratory enzyme levels in pigs, 325
  effect on nitrogenous excretion in *Channa*, 251
  lack of effect on hydroperoxide detoxifying enzymes in *Rana*, 193
  temperature and growth of a reptilian cell line, 163
Acclimatization,
  and muscle potentials in bees, 307
  seasonal and heat resistance in land snails, 119
  seasonal and nitrogenous excretion in *Channa*, 251
  seasonal in *Uca urvillei*, 41
Acid-base balance,
  and effect of temperature on erythrocyte metabolism, 115
  during aerial exposure in *Homarus*, 47
  during heat stress in pigeons, 217
Allometry,
  and errors from wind tunnel chambers, 207
Amphibia, 193, 317
Anapyrexia,
  in mice following urine injection, 97
Apis mellifera ligustica, 307
Arrhenius plot, 25, 57
Artemia salina, 61
Asexual reproduction,
  lack of effect of heat shock on in *Stylonychia*, 201
Astacus astacus, 9

Balanus amphitrite, 91
Balanus balanoides, 91
Basking,
  in geckos, 281
Behaviour,
  and activity cycle in geckos, 281
  and activity in ants, 133
  and body temperature in a snake, 301
  and temperature selection in *Saduria*, 83
  avoidance in thermoregulation in *Gerbillurus* sp., 291
  in mice following urine injection, 97
  thermoregulatory in rabbits, 155
Bird, 149, 211, 217
Blockage errors,
  in wind tunnel experiments, 207
Body temperature,
  and activity cycle in geckos, 281
  in acclimated rabbits, 155
  in four *Gerbillurus* sp., 291
  in mice following urine injection, 97
  in pregnant goats, 109
  in *Pseudechis*, 301
  in rats during heat, hyperosmotic and hypovolemic stress, 177
  role of neuropeptides in regulation of, 329
Brachynotus sexdentatus, 91
Brain,
  vasopressin levels and heat stress in rats, 177
Brood patch,
  artificial for chicken egg, 211

Calcinus laevimanus, 37
Capra hircus, 109
Carassius auratus, 171
Carcinus maenas, 25
Catalase activity,
  lack of an acclimation effect on in *Rana*, 193
Cell culture,
  reptilian and growth temperature, 163
Cephalanthus occidentalis, 245
Channa punctatus, 251
Chlorine,
  and stress proteins in *Eurytemora*, 67
Chloroplast,
  heat sensitivity of phototaxis of, 141
  heat sensitivity of thylakoid proteins of, 239
Cold exposure,
  lack of effect on HSP production in a copepod, 67
Columba livia, 217
Conjugation,
  effect of heat shock on in a protozoan, 201
Corticosterone,
  plasma levels and heat stress in chickens, 149
Crayfish,
  acclimation and membranes, 1, 9
  growth and temperature, 79
  thermal preferendum of, 79
Crustacea, 1, 9, 15, 25, 33, 37, 41, 47, 57, 61, 67, 79, 83, 87, 91
Cryoprotection,
  mechanisms in *Mytilus*, 233
Cyathura carinata, 91
Cycling temperature,
  and hatching of *Tanymastix* eggs, 87
Cytoplasmic streaming,
  heat sensitivity of in *Tradescantia* cells, 141

Daphnia magna, 57
Desiccation,
  and temperature effects on hatching of *Tanymastix* eggs, 87
Development,
  and temperature stress, 61
  heat production during frog egg, 317
Directory of Thermal Biologists, 183
Discus cronkhitei, 119
Distribution,
  effect of thermal effluents on marine crustaceans, 91
DNA synthesis,
  temperature sensitivity of in snail, 267
Drug, 259, 329

Eggs,
  chicken thermal energetics of, 211
  frog, heat production of, 317
  Tanymastix hatching and temperature, 87
Enzyme, 115, 193, 321, 325
Erythrocyte metabolism,
  effects of α-stat, pH and temperature on, 115
Eurytemora affinis, 67
Evaporative heat loss,
  in *Gerbillurus* sp., 291
  in rabbits, 155

Fever,
role of neuropeptides in, 329
Fish, 171, 251
Food consumption,
and temperature in *Macrobrachium*, 33
effect of neuropeptides on, 329
Foraging in ants,
and ambient temperature, 133
and body temperature in *Pseudechis*, 301
Forced convection,
effect on thermoregulation in *Lepus*, 125
Formica obscuripes, 133
Freezing ectotherms,
model for estimating ice content of, 223
Freezing tolerance,
in *Mytilus*, 233
Fusimotor neurones,
influence on by nucleus raphe magnus, 259

Gallus domesticus, 149, 211
Gastrocopta armifera, 119
Gerbillurus paeba paeba, 291
Gerbillurus setzeri, 291
Gerbillurus tytonis, 291
Gerbillurus vallinus vallinus, 291
Glucose regulated proteins,
and reptilian cell thermotolerance, 163
Glutathione peroxidase activity,
lack of an effect on by acclimation in *Rana*, 193
Growth rate,
ambient temperature and muscle enzymes in pigs, 325
of crayfish and temperature, 79
of marine crustaceans and temperature, 91

Haemoglobin,
oxygen affinity of and temperture in *Daphnia*, 57
Hatching,
effect of temperture and desiccation on *Tanymastix* eggs, 87
Heart function,
temperature dependence of goldfish, 171
Heat damage,
to thylakoid membrane proteins, 239
Heat hardening,
in *Tradescantia* leaves, 141
Heat injury,
electrolyte leakage as index of, 245
repair of in *Tradescantia*, 141
to roots of woody swamp seedlings, 245
Heat loss,
convective in mice, 313
Heat production,
and ambient temperature in pigs, 103
by frog egg during development, 317
in acclimated rabbits and ambient temperature, 155
Heat shock,
and heat resistance in *Artemia*, 61
and heat resistance in *Eurytemora*, 67
and heat resistance in *Tradescantia*, 141
and macronuclear division in *Stylonychia*, 201
Heat shock proteins,
in *Artemia*, 61
in *Eurytemora*, 67
in reptilian cell lines, 163
Heat stress,
and acid-base balance in pigeons, 217
and blood hormones in chickens, 149
and thyroid hormones in goats, 109
in foraging ants, 133
in pre- and post-hatch chickens, 149
in pregnant goats, 109
in rats and vasopressin levels in limbic system, 177
Heat tolerance,
and cell division in a protozoan, 201
of three species of land snail, 119
Heliothermy,
in a snake, 301
of a reptilian cell line, 163
Helix aspersa, 267
Hemidactylus frenatus, 281
Hibernation,
and protein metabolism in a snake, 321
and spermatogenesis in a snail, 267
role of neuropeptides in, 329
Homarus gammarus, 47
Homeoviscous adaptation, 1
Hormones, 109, 149, 177, 329
Human, 255
Hydroperoxidase activities,
lack of acclimation effect on in *Rana*, 193
Hyperosmolar stress,
and heat, effect on brain vasopressin in rats, 177
Hypovolemia stress,
and heat, effect on brain vasopressin in rats, 177

Ice content,
model for estimation of in freezing ectotherms, 223
Ice growth,
in *Mytilus*, 233
Iguana iguana, 163
Insect, 133, 307
Insulation,
in acclimated rabbits, 155
Irradiance,
effect on metabolism in *Lepus*, 125

Lepidodactylus lugubris, 281
Lepus townsendii, 125
Life cycle,
of marine crustacea and thermal effluents, 91
Limbic system,
effect of vasopressin and role in thermoregulation, 177
Lipids,
membrane and temperature in crustacea, 1
Locomotion,
and temperature in *Macrobrachium*, 33
Lower critical temperature,
in pigs, 103

Macrobrachium acanthurus, 33
Mammal, 97, 103, 109, 115, 125, 155, 177, 255, 259, 291, 313, 325, 329
Membrane,
lipid composition and temperature, 1
proteins, heat damage to, 239
Membrane fluidity, 1
Membrane potential,
muscle and acclimation effects, 307
temperature dependence of 9, 15
Metabolic rate,
and ambient temperature in *Gerbillurus* sp., 291
and ambient temperature in pigs, 103
and seasonal adaptation in *Uca*, 41
and temperature in *Calcinus*, 37
errors in measurements from wind tunnels, 207
in cold in mice, 313
in *Lepus*, and irradiance and wind speed, 125
Mitochondria,
enzyme activities in relation to ambient temperature in pigs, 325
Model,
for ice content of freezing ectotherms, 223
Mollusc, 233, 267
Mus domesticus, 313
Mytilus edulis, 233

Naja haje, 321
Nerve,
current-voltage relationship and temperature, 15
spike frequency of statocyst afferents, 25
Neuropeptides,
role in thermoregulation, 329
Nitrogenous excretion,
effect of acclimation on in *Channa*, 251
Non-evaporative heat loss,
in acclimated rabbits, 155
Nucleating agents,
in cryoprotection in *Mytilus*, 233
Nucleus raphe magnus,
influence on fusimotor neurone activity, 259
Nyssa aquatica, 245

Opioids,
role in thermoregulation, 329
Oryctolagus cuniculus, 155
Oxidative stress,
and temperature in *Rana*, 193
Oxygen binding,
of *Daphnia* haemoglobin, 57
Oxygen consumption,
in *Calcinus*, 37
in four *Gerbillurus* sp., 291
in *Lepus*, 125
in *Rana*, 193
in *Uca*, 41
Oxyloma retusa, 119

Pachygrapsus, 15
Panting,
and acid-base status in heat stressed pigeons, 217
pH,
and temperature effects on erythrocyte metabolism, 115
haemolymph and temperature in *Homarus*, 47
Phaseolus vulgaris, 239
Phenocopies,
and heat stress, 61
Phospholipids, 1
Photoperiod,
effect on locomotion in *Macrobrachium*, 33
effect on membrane lipid composition, 1
Plant, 141, 239, 245
Plasmolysis,
heat sensitivity of in *Tradescantia*, 141
Procambarus spiculifer, 79
Protein,
membrane, heat damage to, 239
metabolism and hibernation in a snake, 321
Protozoa, 201
Pseudechis porphyriacus, 301

Q_{10},
for erythrocyte metabolism, 115
for nitrogenous excretion in *Channa*, 251
for respiration in *Uca* in different seasons, 41
for respiration of *Calcinus* at different salinities, 37

Rana brevipoda porosa, 317
Rana perezi, 193
Rattus norvegicus, 115, 177, 259
Reptile, 163, 281, 301, 321
Respiratory frequency,
and heat stress in goats, 109

Saduria entomon, 83
Salinity,
and temperature effect of *Calcinus* respiration, 37
Salix nigra, 245
Seasonal,
acclimation in *Uca urvillei*, 41
activity patterns and thermoregulation in a snake, 301
effects of irradiance on *Lepus* metabolism, 125
variation in cryoprotection in *Mytilus*, 233
Solar radiation,
and foraging in ants, 133
and temperature regulation in goats, 109
Spermatogenesis,
temperature sensitivity of in *Helix*, 267
Statocyst afferents,
effect of temperature on, 25
Stretch receptor neurone,
dependence of membrane potential of on temperature, 9
Stylonychia mytilus, 201
Suis suis, 103, 325
Supercooling,
and cold tolerance in *Mytilus*, 233

Taxidermic mounts,
errors from use in wind tunnels, 207
Taxodium distichum, 245
Temperature dependence,
of acid-base balance on aerial exposure in *Homarus*, 47
of *Calcinus* respiration at different salinities, 37
of erythrocyte metabolism, 115
of food consumption in *Macrobrachium*, 33
of foraging in ants, 133
of goldfish heart function, 171
of heat balance in rabbits, 155
of locomotion in *Macrobrachium*, 33
of membrane structure, 1
of oxygen consumption in *Uca*, 41
of properties of *Pachygrapsus* axon, 15
of properties of *Pachygrapsus* muscle, 15
of spermatogenesis in *Helix*, 267
of stretch receptor neurone membrane potential, 9
Temperature selection,
in a toroidal gradient in *Saduria*, 83
in mice following urine injection, 97
Thermal conductance,
errors in measurement of in wind tunnel experiments, 207
in four *Gerbillurus* sp., 291
of mice, 313
Thermal effluents,
effect on marine crustaceans, 91
Thermal energetics,
of birds' eggs, 211
Thermal gradient,
toroidal apparatus, 83
Thermal preferendum,
of *Macrobrachium acanthurus*, 33
of *Procambarus spiculifer*, 79
Thermal regime,
of two gecko species, 281
Thermal sense,
modal opponency of in man, 255
Thermal stress,
and brain vasopressin levels, 177
in foraging ants, 133
in pregnant goats, 109
Thermoregulation,
behavioural in geckos, 281
behavioural in *Pseudechis*, 301
behavioural in *Saduria*, 83
in four *Gerbillurus* sp., 291
in mice following urine injection, 97
in pregnant goats, 109
irradiance and wind speed in *Lepus*, 125
role of neuropeptides in, 329
use of wind tunnels in estimation of, 207

Thermotolerance,
and heat shock in a reptilian cell line, 163
and heat shock in *Artemia*, 61
Thylakoid membranes,
heat damage to proteins, 239
Thyroid hormone levels,
in heat stressed chickens, 149
in newborn kids, 109
Tradescantia albiflora, 141
Trehalose,
possible role in thermotolerance in *Artemia*, 61
Tributyltin,
effect on stress protein production in *Eurytemora*, 67

Urine administration,
to mice and thermoregulation, 97

Wind speed,
effect on metabolic rate in *Lepus*, 125
Wind tunnel,
errors from experiments using, 207
